

what are steps?

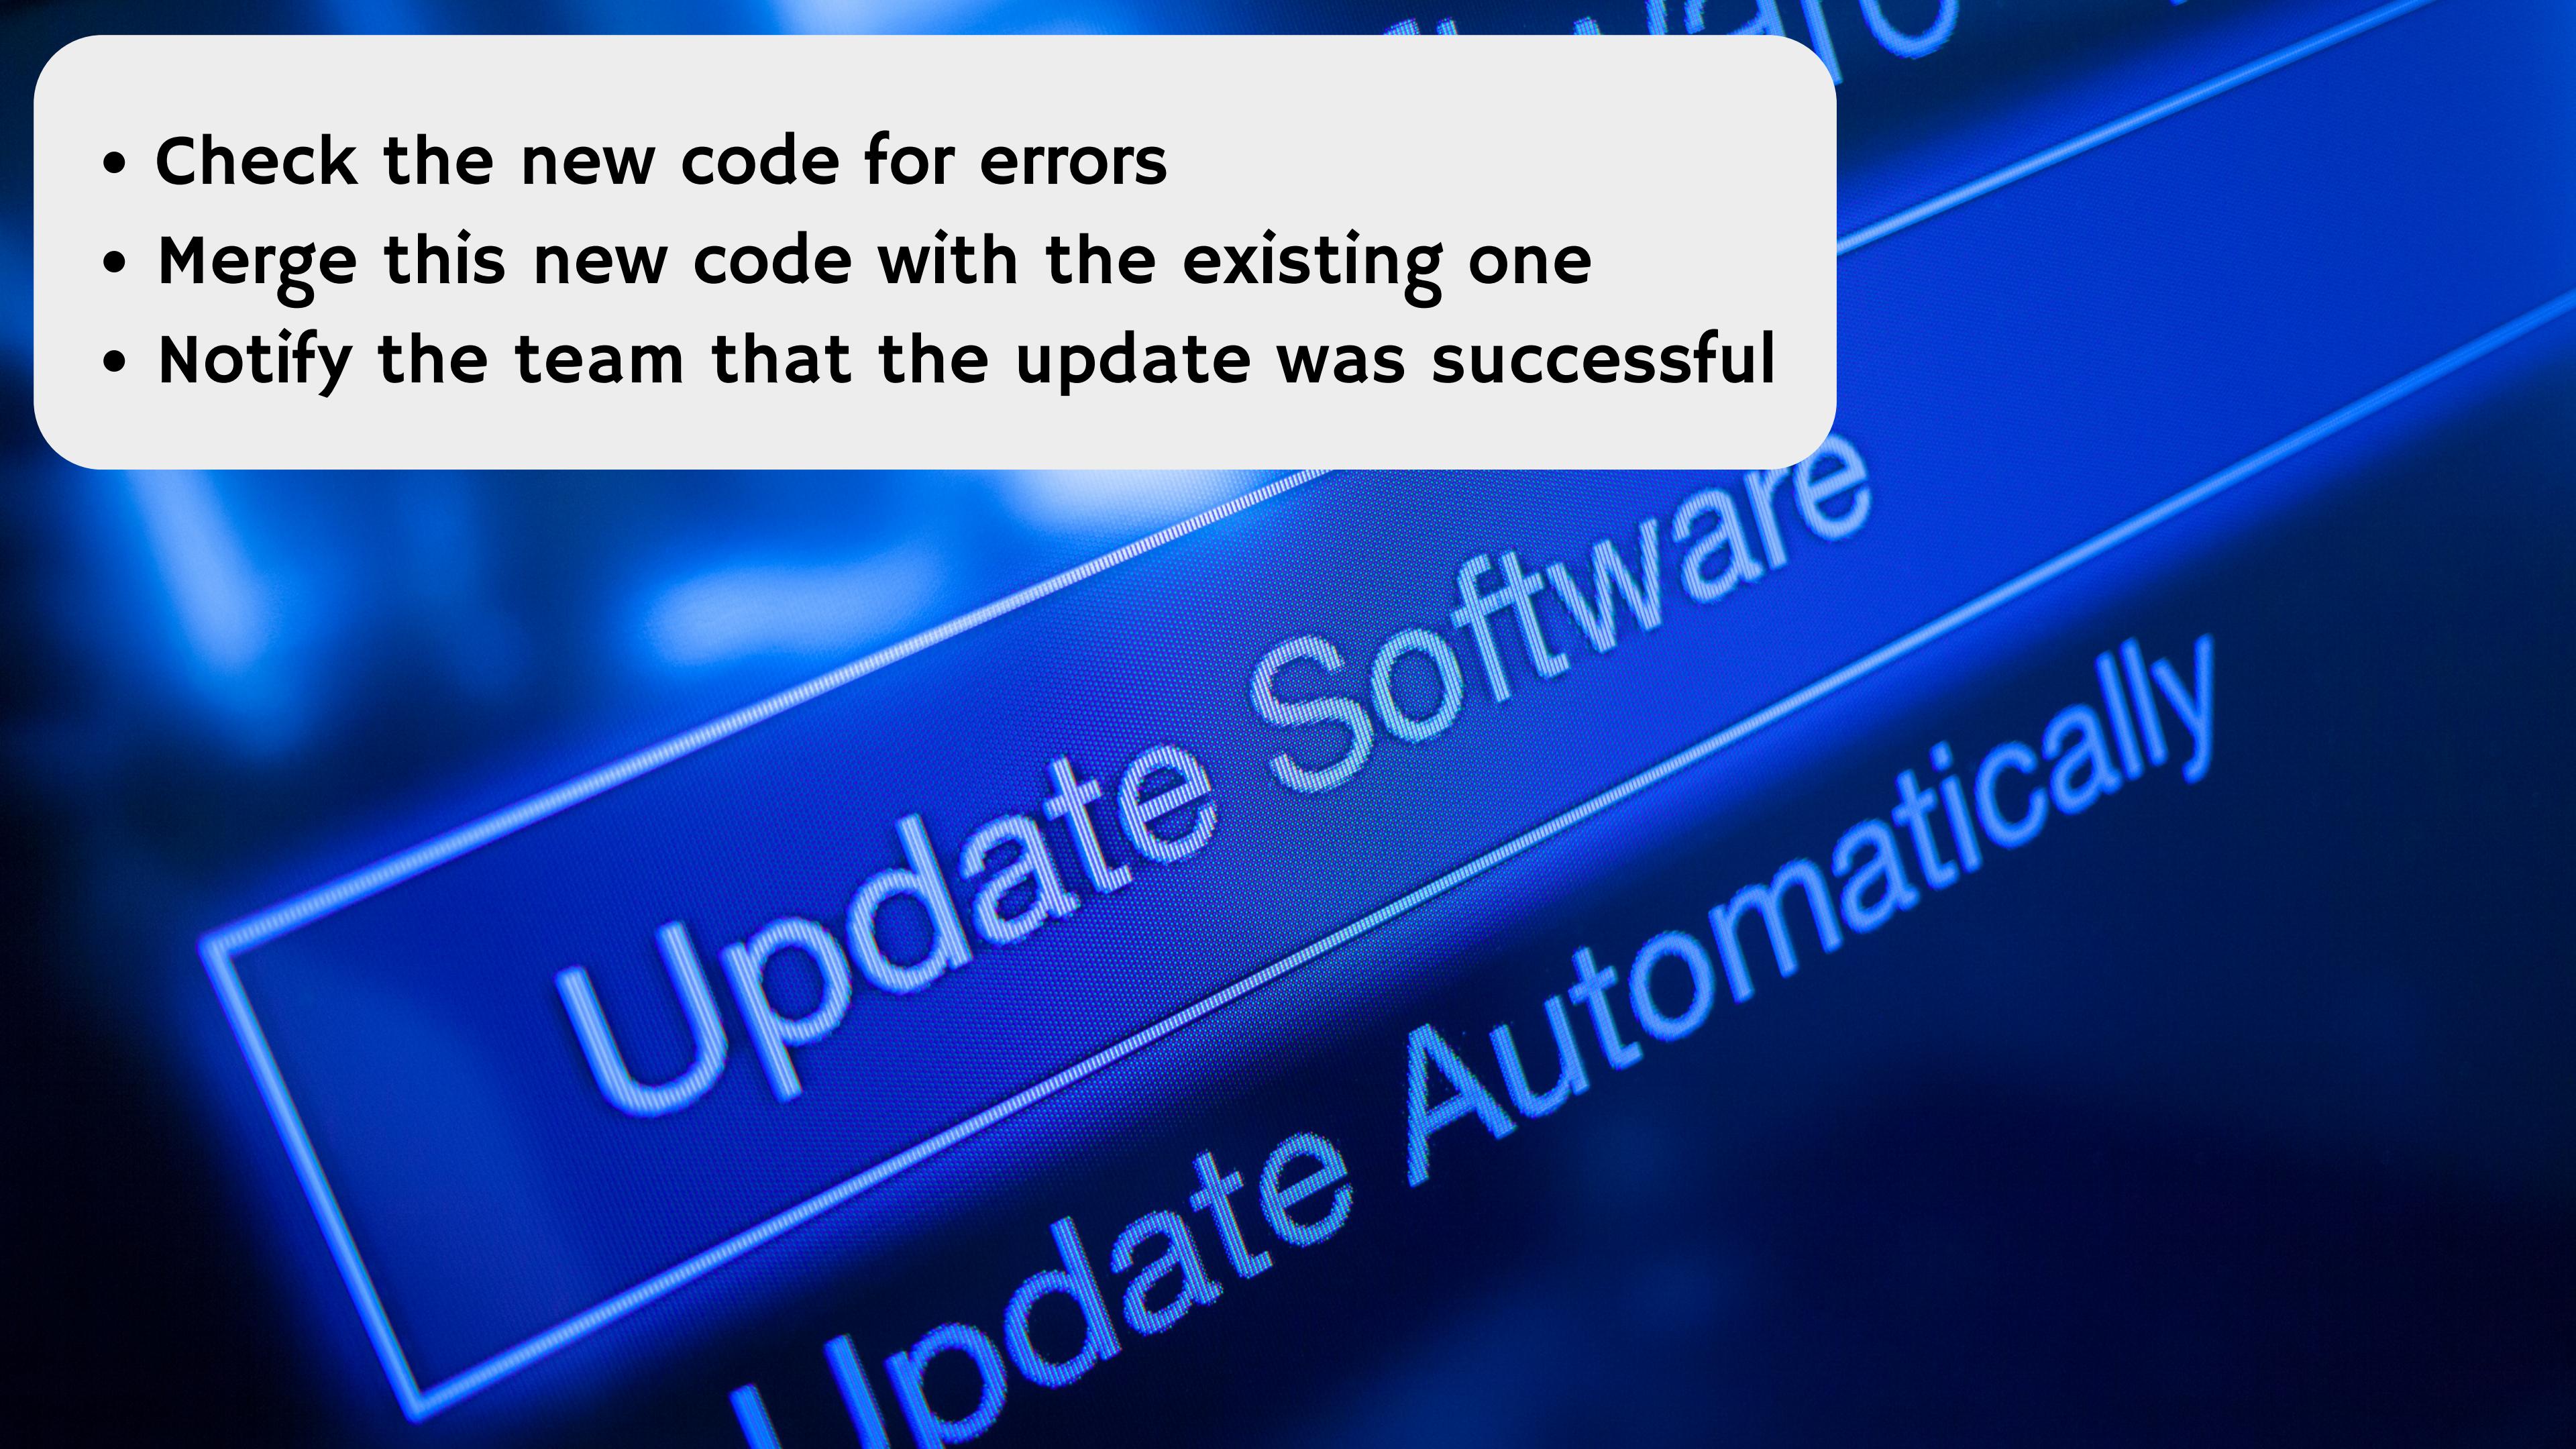

INSTRUCTION MANUAL

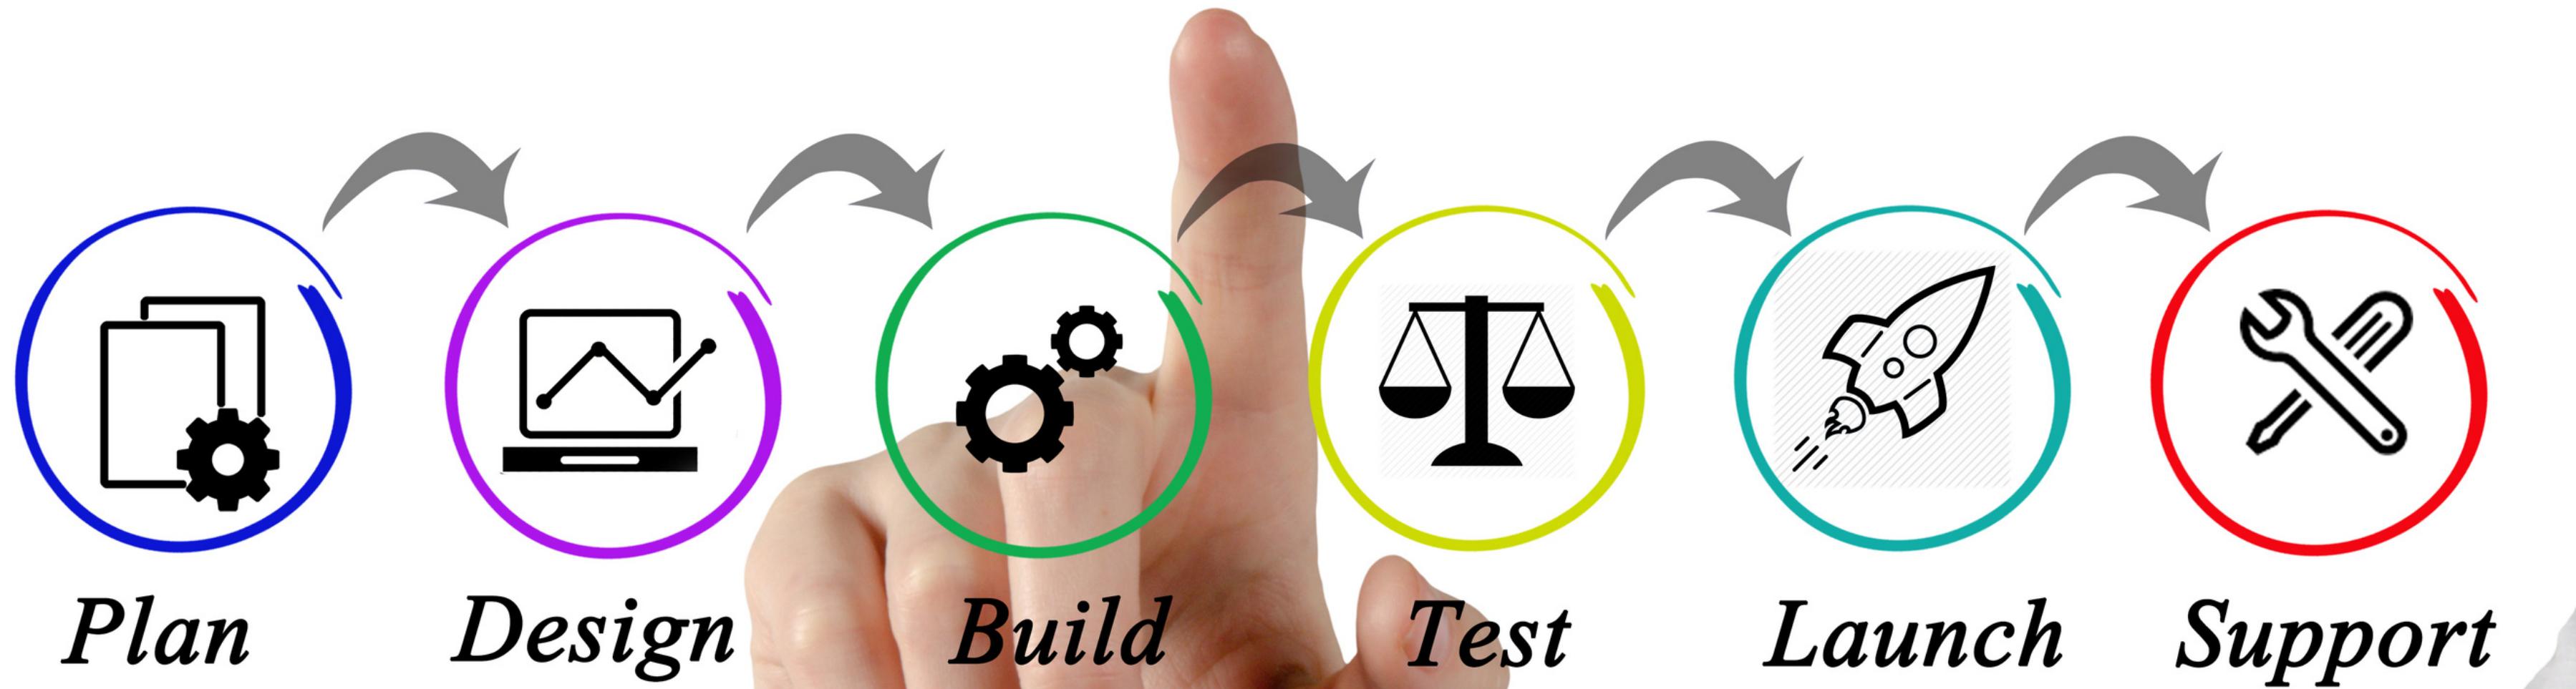

It's a specific instruction, a singular action to be performed. Within a broader process, steps are the building blocks that ensure everything comes together correctly

- Check the new code for errors
- Merge this new code with the existing one
- Notify the team that the update was successful

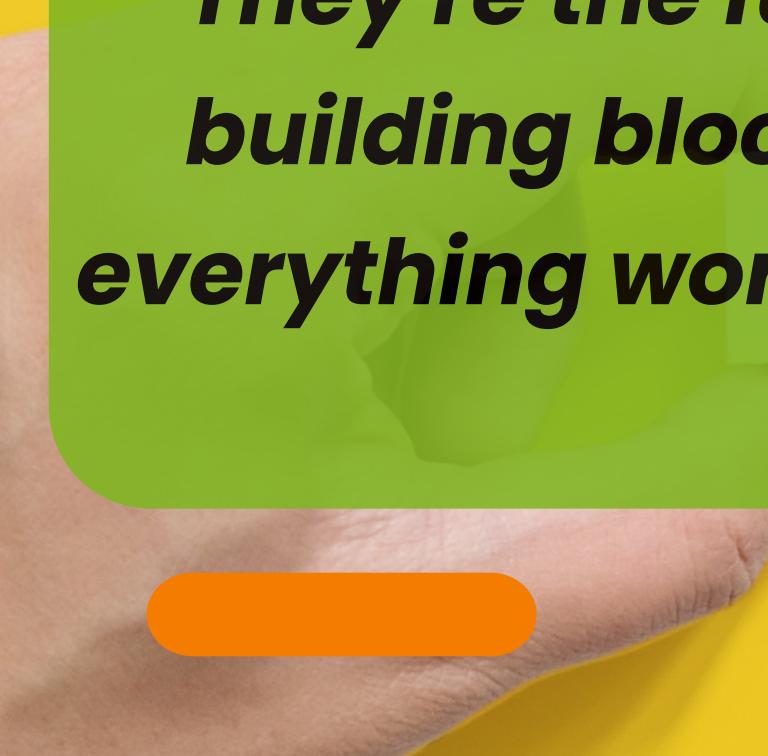

Update Software
Update Automatically

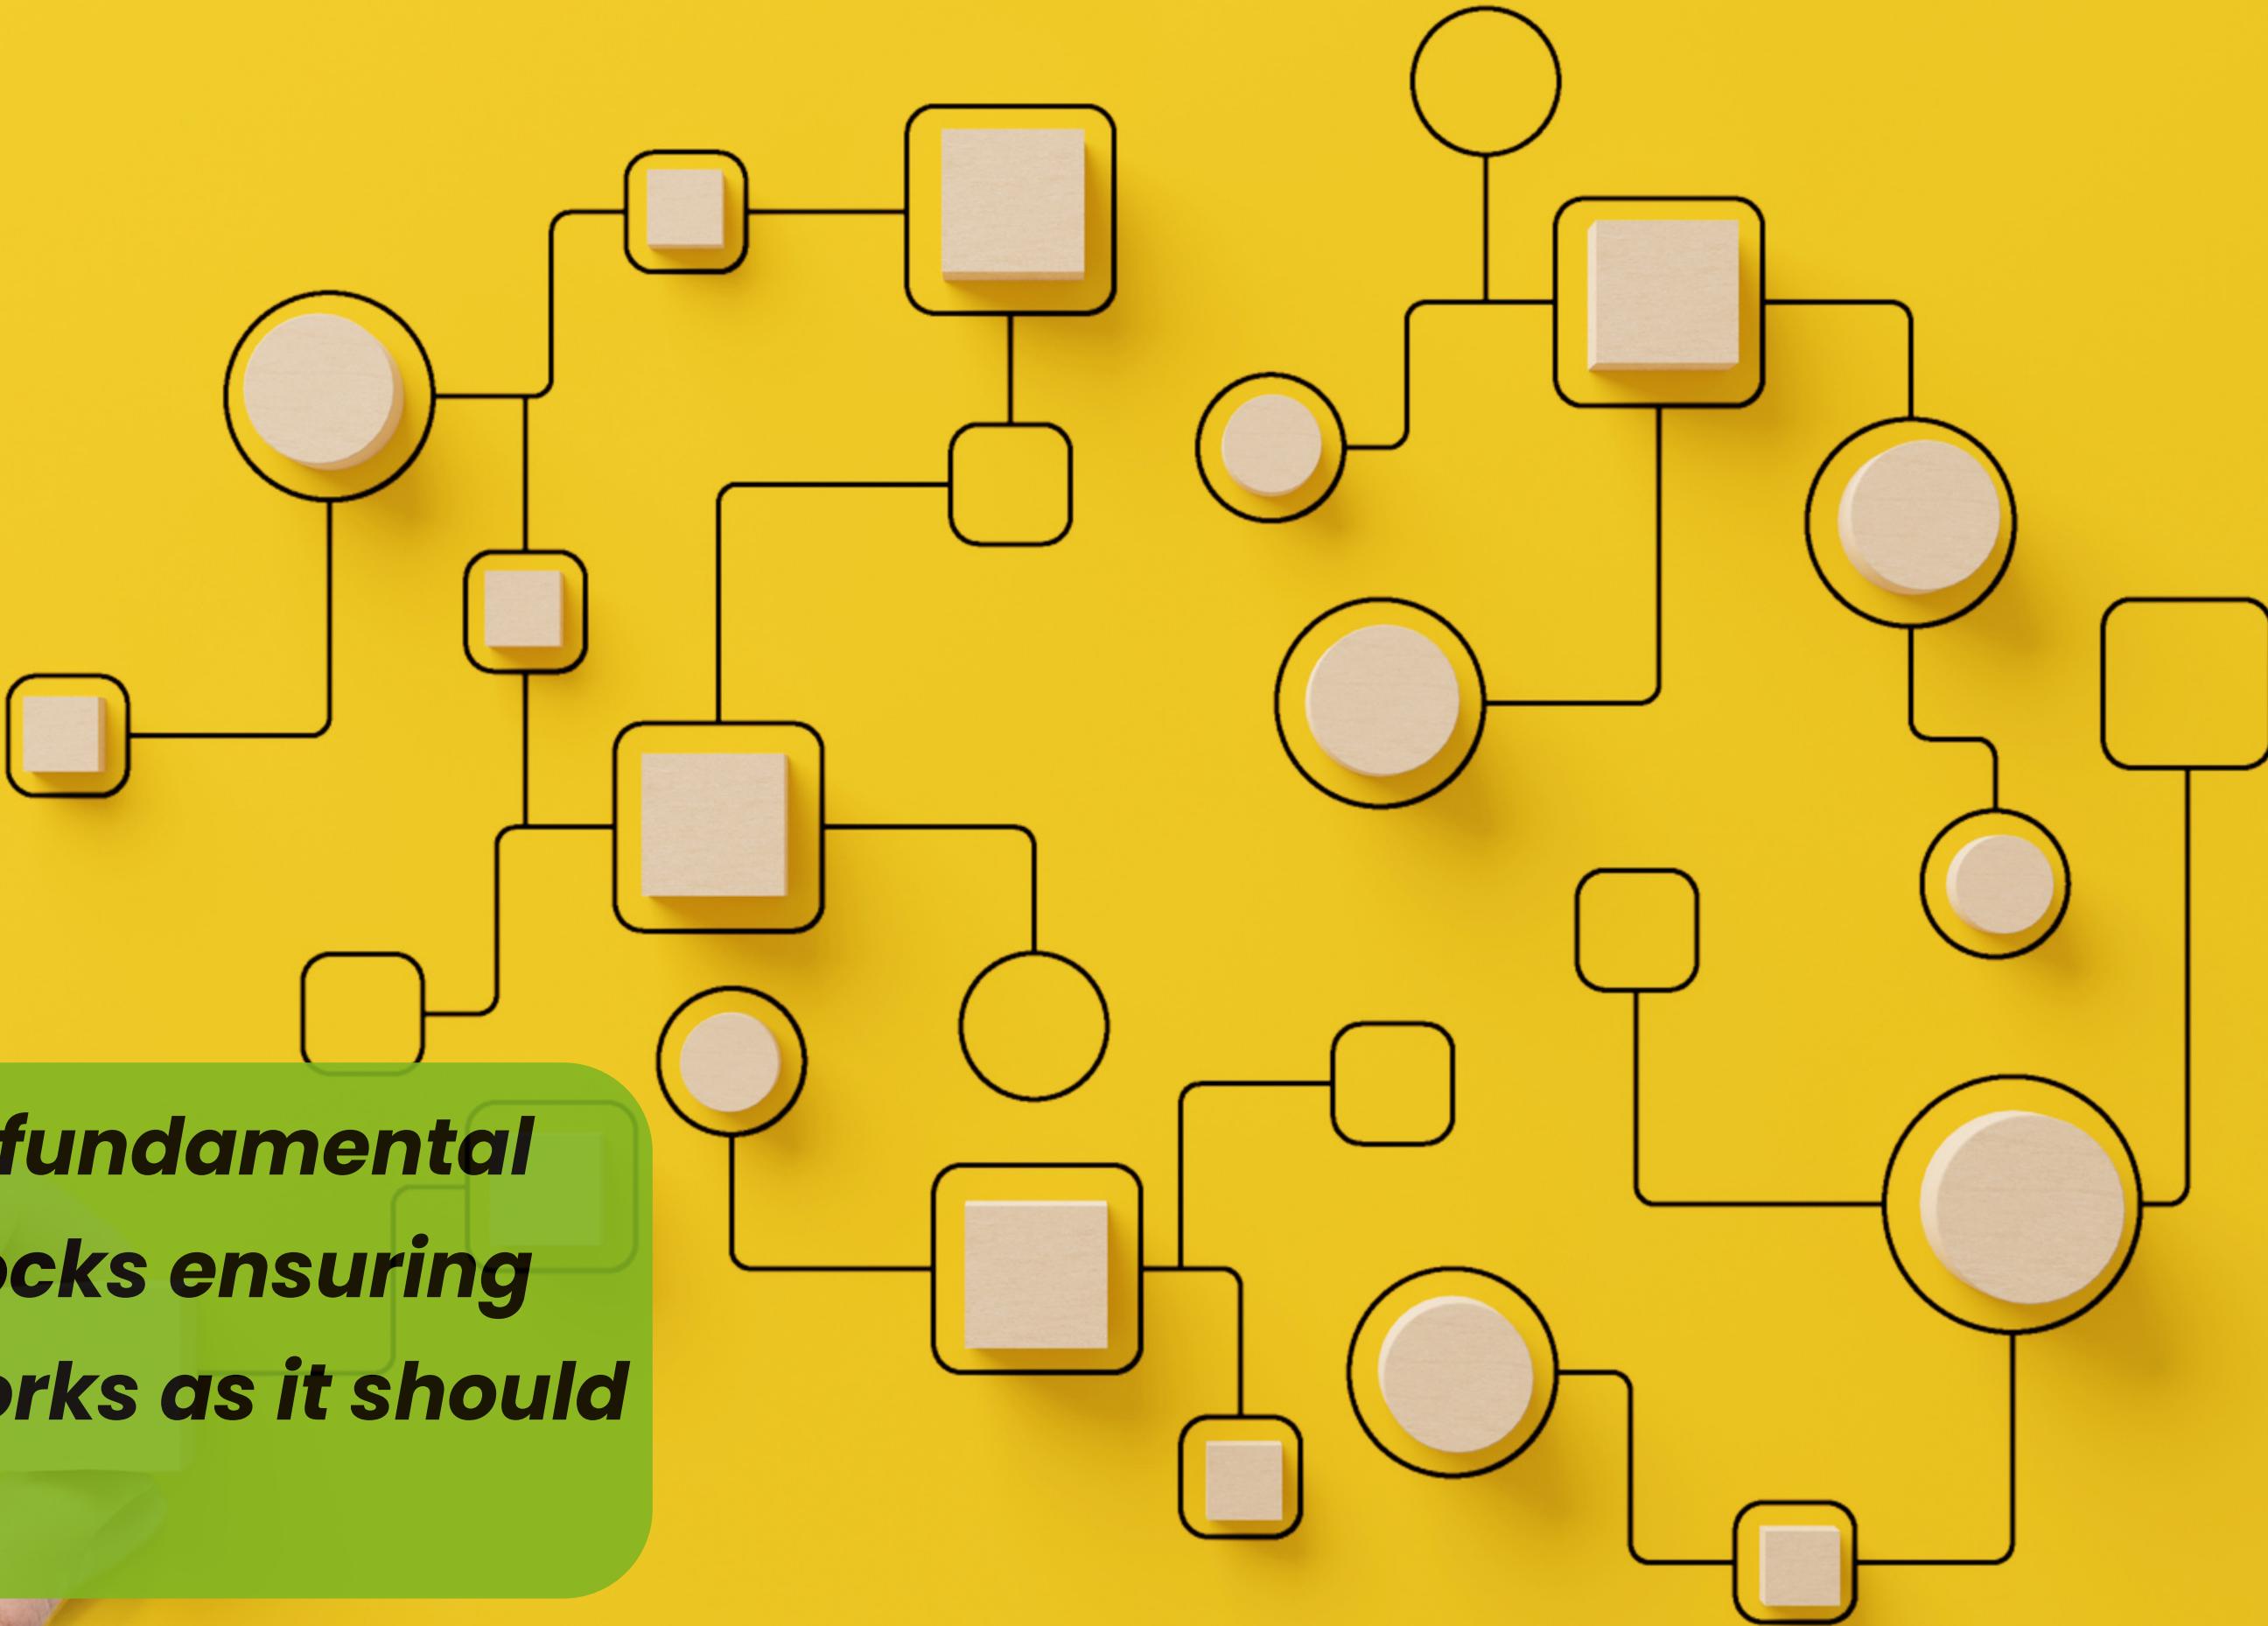

A software process relies on each step being correctly executed

***They're the fundamental
building blocks ensuring
everything works as it should***

The background features a dynamic, abstract design composed of numerous thin, curved lines in shades of orange and yellow. These lines create a sense of motion, resembling waves or energy flow. A prominent feature is a large, solid yellow circle located in the bottom right corner. The overall aesthetic is modern, minimalist, and vibrant.

Thank You
